

Club Protocol for Holding and Sharing Members Medical Details

Participants who have relevant medical conditions must be willing to provide medical and emergency contact information to the coach running the session which must be stored confidentially but accessible at training sessions. Participants must provide guidelines for coaches.

Both relevant medical information and emergency contact must be collected at the start of the year in the Members Registration Area and updated as and when by the Member. All information will be stored securely and in compliance with the GDPR Policy which is available to all members
